Just south of Silicon Valley and east of Carmel, in the pristine San Benito Valley, lies Stone Canyon Ranch. This breathtaking 10,000+ acres (40+ km²) landscape has been lovingly developed by world renowned entrepreneur, George Roberts (KKR), into one of California's premier equestrian ranch properties. The spectacular residential compound is perfectly suited for both sophisticated entertaining and private relaxation. The land holds potential for vineyards, olive groves, and much more, a true opportunity to own your own private kingdom.

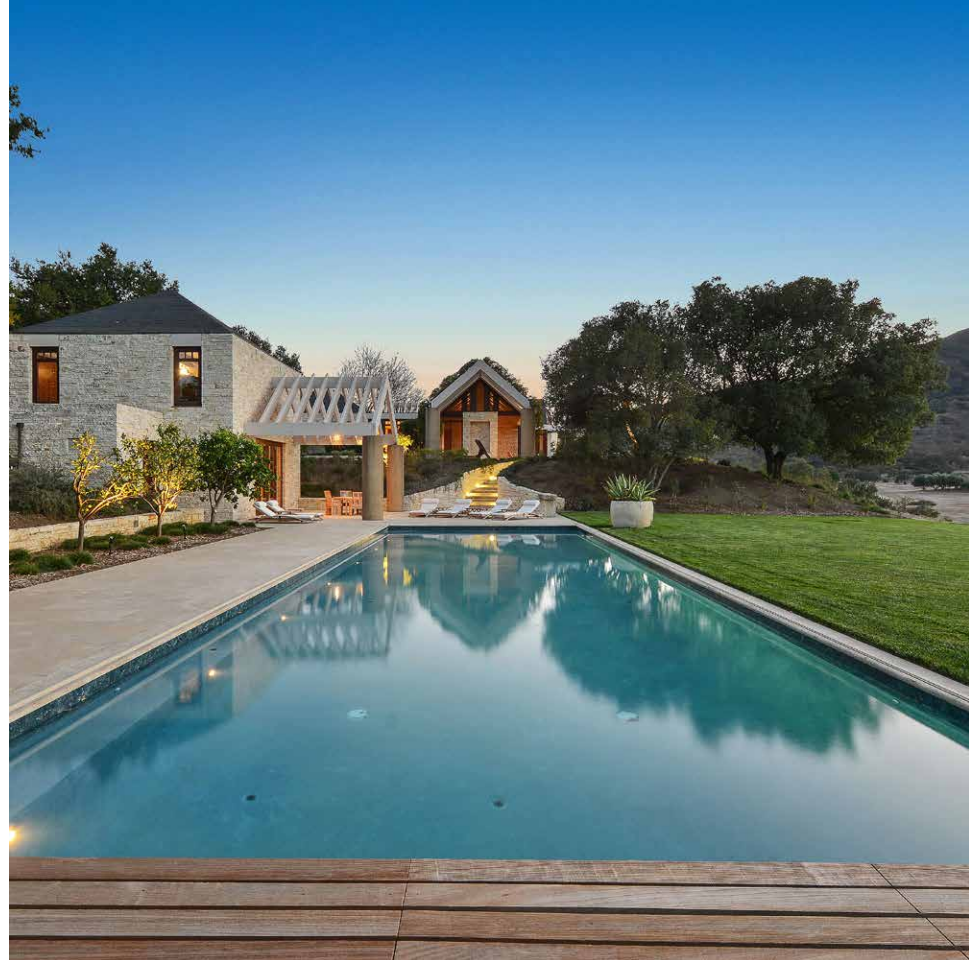

With an abundance of natural beauty, Stone Canyon Ranch is the crown jewel of this breathtaking region. This transcendent compound was brought to life through the vision of renowned San Francisco Architect, Ugo Sap who designed the estate to provide stunning views, maximum seclusion, and a true communion with nature. The road from the main residence that loops the property is over 35 kilometers long.

Taking advantage of the 360-degree panoramas of mountains, hills, lakes and the river, the 7,900-plus-square-foot magnificent main residence is anchored by a large, open and light-filled central foyer. In addition to a living room, study, formal and informal dining areas, large master suite, complete with two baths, there is also a library and wine cellar.

The main house is complemented by three guest residences, each with separate entrances and occupying over 4,500 square feet. All four homes feature natural stone and wood finishes, fireplaces, vaulted ceilings, beautifully finished kitchens and bathrooms. Also located on the property are a swimming pool, tennis court, pool house, and landscaped gardens.

Spectacular state of the art equestrian facilities include two riding arenas, two additional training arenas, five separate horse stables and hay barn, all built to meticulous standards of function, beauty and craftsmanship, Stone Canyon Ranch is hailed as one of the nation's premier ranch properties.

Equally suited for the equestrian, the gentlemen farmer, or anyone who loves the outdoors, the estate is just over an hour's drive to Laguna Seca and Pebble Beach for the car enthusiast or ardent golfer. With awe-inspiring architecture, a natural abundance of beauty and privacy, and easy proximity to all the Bay Area has to offer, Stone Canyon Ranch is truly an estate of distinction.
